Mrs. Farnsworth
by Andy Park

As everyone knows, Mrs. Farnsworth has been nominated the best earth science teacher in a four-state region by the National Association of Geology teachers.

A fellow teacher entered Mrs. Farnsworth's name. School officials and other teachers filled out forms with questions about her teaching, but no one actually visited her class to observe. She was named the Ohio nominee and then the best in a four-state area.

Mrs. Farnsworth says she believes that to be a good teacher, one needs, among other things, enthusiasm, a willingness to learn, open-mindedness, fairness and empathy for students.

Faculty Play
by David Brown

This year's faculty play "Hip Hippie Hooray", like other faculty plays in the past, was a success. It brought in about six hundred dollars. The unusual roles played by the teachers gave students a chance to see their teachers as people, not just as teachers. The following are comments on the performance.

Mrs. Ames: "It was an enjoyable experience."

Dave Devore: "The humor lacked subtlety of any sort. What humor there was was presented by the teachers' dress and actions."

Todd Singer: "It was good and funny, and I've never seen Mrs. Vaughan in such a good mood!"

Anonymous: "It was great!"

Lisa Heckman: "It was good."

We, Dave DeVore and Candi Spencer, will the following article to the freshmen at Jones Junior High School, Class of '77.

Less than a week is left of our three years here at Jones. Three years of what at times has seemed totally boring has passed, and it's now time to travel onward to the High School.

We've all grown in different ways, and even if you don't have Mrs. Vaughans algebraic equations memorized, at least you've learned to recognize the building!

It would be impossible to go through everyone's three years here at Jones, for each person has his own warm memories. It's now time to move forward to a higher lifestyle, leaving behind many childhood pranks. The world we're now entering is a tough, competitive one; and though a few will "cop-out", many of us will push forward.

These past three years will never come again, nor will the next three ever be repeated. High School years considered by some the best years of their lives, happen only once. Use them wisely!

Mrs. Cherubini
by Andy Park

Mrs. Cherubini, our new home economics teacher, taught for two years in Portsmouth and for five years at the Upper Arlington High School.

Mrs. Cherubini says she believes that since Jones is so old, things should be repaired immediately when they start to wear out. However, despite Jones' old age, Mrs. Cherubini says she likes Jones.

Mystery Student?

by Cindy Hauck

This month's female mystery student is in section 9-1 and can be caught in Mr. Caruso's eighth period science class. She won't have far to walk next year to the high school, because she lives right across the street from it. She enjoys skiing, swimming, and working in the main office 4th period on Tuesday and Thursday. She can't wait for summer, because she is going to Florida the second week in June with "Jo-Jo." Who is she?

Tennis
by Leilani Glower

Mr. Sebastian is the tennis coach at Jones Junior High School. So far the tennis team's record is six wins and one loss. The loss was to the Upper Arlington Reserves, but the Jones team made a come back and beat the High School.

The top eight players in order from first to eighth are as follows: seventh grader Scott Wallace who is undefeated, seventh grader Pete Edwards, eighth grader Herb Postle, ninth grader Steve Seubert, eighth grader Dave Braun, ninth grader Perry Bickel who is captain and eighth grader Gretchen Bender.

Most of the schools that the Jones Tennis Team plays are high school reserve tennis teams.
